

WHITEPAPER FOR PHOENIXCORPS REPRESENTATIVES

Join the wings of financial freedom and earn commission money without ever investing a single cent! Up to 16.5% commission can be earned on every \$ worth of sales you generate! Phoenixcorps is a multi level marketing platform that offers exclusive access to privatesales of thoroughly vetted projects and fundraisers for either startup or existing legit companies.

The system is simple : You get yourself a account, get a access code for the privatesales and spread this code through your network. If investors use your access code to invest in one of the privatesales and fundraisers we organise you get a commission reward. Depending on your faction and level you can earn up to 16.5% and this reward will be paid out on a weekly basis in either USDT or the native token of the chain of the project we are hosting the privatesale for (so for example Ethereum or BNB, we do NOT reward users with some self made token of any other useless currencies, real work earns real money!)

Phoenixcorps does not have it's own token. No investing is required to get or upgrade a account. Phoenixcorps will never ask it's representatives for money, investing in your account is done by working hard and levelling up, buying your way up is not possible. We are a work hard earn hard corps, not a "who pays most gets all priveleges" unfair company. Come and join us with empty pockets and work hard to fill them with rock solid cash.

Besides earning commission money you will also earn 1 XP (experience point) for each \$ you generate in sales. This XP can be used to upgrade your account and earn more commission % or it can be used to recruit soldiers for your division if you are part of the "Army" and are level 5 or higher.

PHOENIXCORPS HAS 2 SALES STRUCTURES

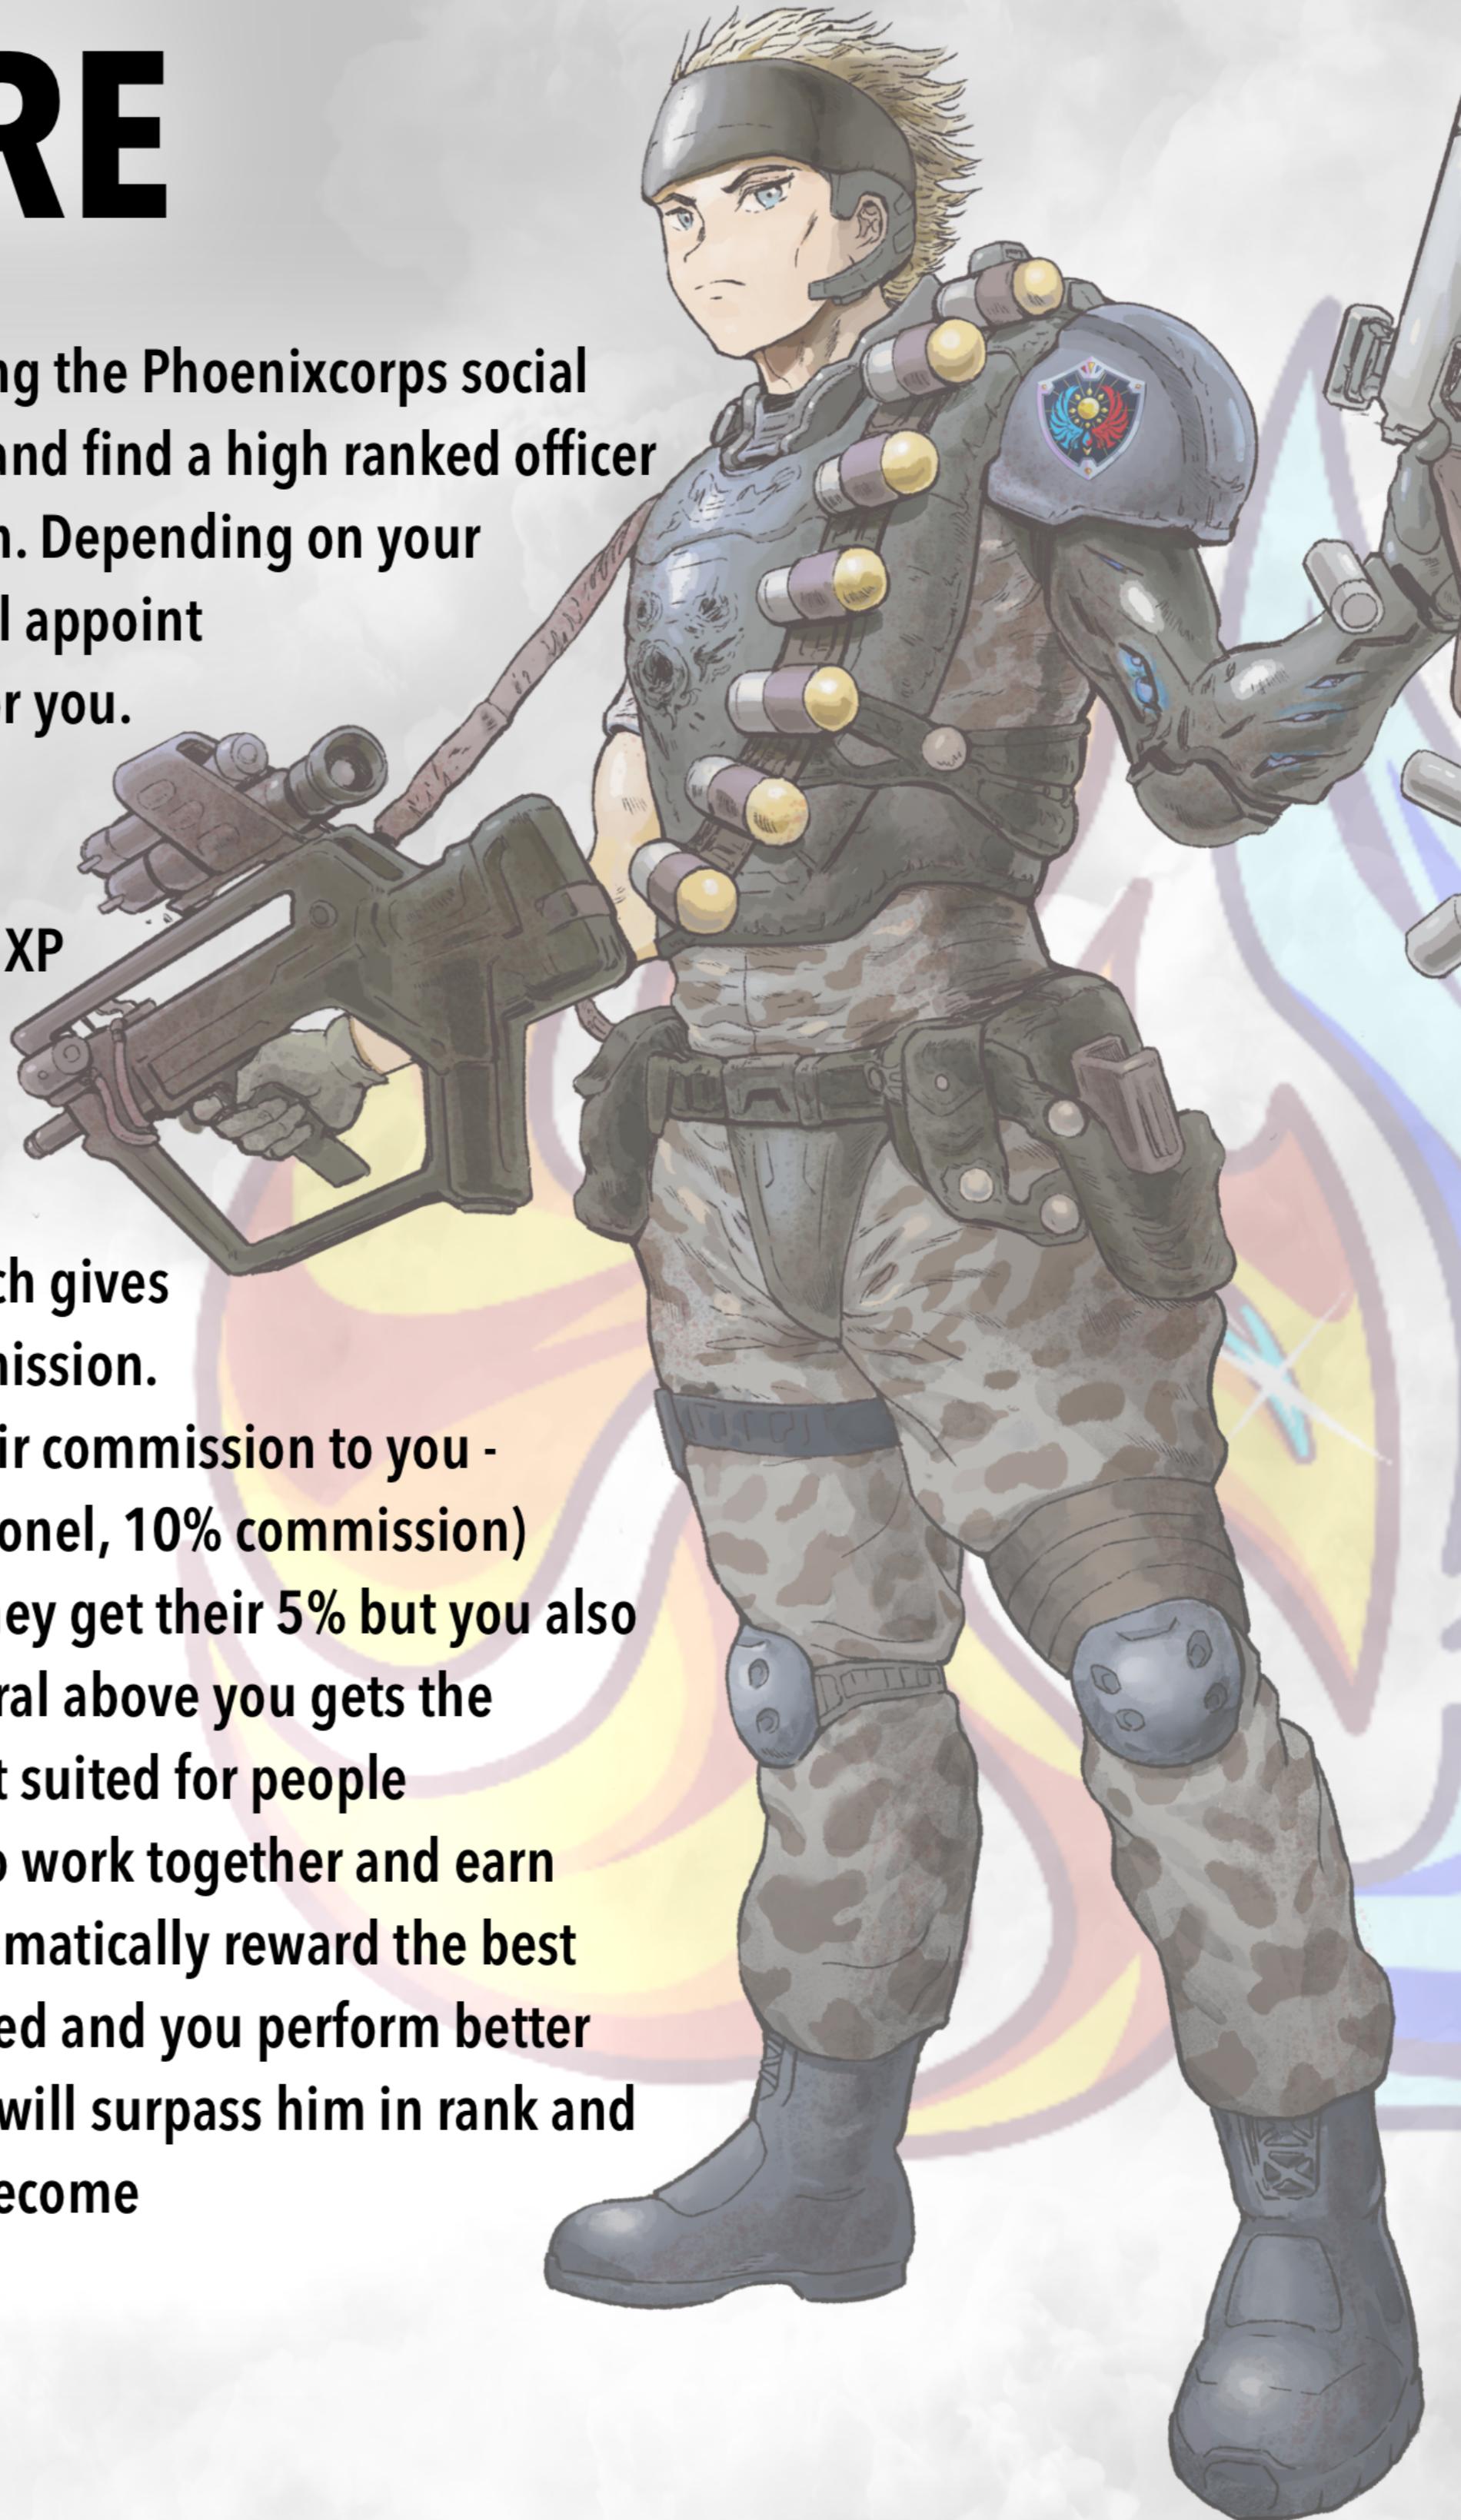

THE "ARMY" STRUCTURE

You can get a "Army" account by joining the Phoenixcorps social media groups on Telegram or Discord and find a high ranked officer and ask to be recruited in their division. Depending on your network and knowledge the officer will appoint you the rank he thinks is best suited for you.

A level 1 army account starts off with 5% commission and you can upgrade your account with earned XP or by getting a voucher from the high command for showing a lot of effort and commitment. The max level you can reach this way is level 14, which gives you the title of General and 14% commission.

All recruits in your division kick up their commission to you - for example : If you are a level 10 (Colonel, 10% commission) and your level 1 soldiers make sales they get their 5% but you also get 5% commission, the level 14 General above you gets the remaining 4%. The army system is best suited for people that want to work in teams and want to work together and earn together. In a fair system that will automatically reward the best performers the most. If you got recruited and you perform better than the officer that recruited you you will surpass him in rank and no longer be part of his division and become the leader of your own division.

Soldier accounts can be acquired by being appointed by a Sergeant major, a colonel, general of army or the Field Marshall account (Team) they also require no KYC and require only a name they can later change, a email address to send a randomised password to they can later change and a wallet address they can later change.

We also made the option to add multiple wallet addresses of multiple chains to accounts.

RANKING SYSTEM FOR THE ARMY FACTION

THE AMOUNT OF XP NEEDED FOR EACH LEVEL IS YET TO BE DETERMINED

LVL 1

Soldier 5%

LVL 7

Captain 8%

LVL 13

Lieutenant General 13%

LVL 2

Soldier 1st class 5.5%

LVL 8

Major 8.5%

LVL 14

General 14%

LVL 3

Corporal 6%

LVL 9

Lieutenant Colonel 9%

LVL 15

General of army (Can not be reached by gaining XP, can only be appointed by the Field Marshal) 15% Can spend TBD amount of XP to appoint soldier, sergeant majors or colonels)

LVL 4

Sergeant 6.5%

LVL 10

Colonel 10% (Can spend TBD amount of XP to appoint soldiers or sergeant majors)

LVL 18

Field Marshall (Team) 18% (Can appoint any rank for free except supreme commander)

LVL 5

Sergeant Major 7% (can spend TBD amount of XP to appoint soldiers)

LVL 11

Brigade General 11%

LVL 6

Lieutenant 7.5%

LVL 12

Major General 12%

The Army systems % commission allocation works like pyramid where the money climbs up.

So every level 5 account gets the leftover % of the 5% the level 1 to 4 generate. Every level 10 account gets the leftover % from the level 6 until 9 accounts when they appointed a level 5 account, they get the leftover % from every level 1 until 4 account they appoint level 1 accounts. when these accounts surpass level 5 they still serve the same colonel. Every level 15 account gets the leftover % of every level 11 until 14 when they appointed a level 10 account, gets the leftover % from the level 6 until 9 accounts when they appointed a level 5 account, they get the leftover % from every level 1 until 4 account they appoint level 1 accounts. when these accounts surpass level 5 they still serve the same general of army.

The exact same logic applies to the Field Marshall account (Team) = every general of army generates 3% for the Field Marshall + 2% for the Supreme Commander.

Army accounts can not level up higher then level 14. After that the XP they gain is just for show.

Accounts that outgrow their appointers become free agents that can recruit their own army.

Level 15 accounts can only be appointed by the Field Marshall account.

THE "SHINOBI" SYSTEM

You can get a Shinobi account simply by registering yourself - for free - on the Phoenixcorps website.

You will be solo, not kicking up commission % to higher ranked Shinobi.

You will start as a level 1 Shinobi with 3.5% commission but by gathering XP or getting rewarded by the Daimyo for showing great effort and commitment you can level up to a maximum level of 17 and you will gain the title of "Kage" earning 16.5% in commission. When a Shinobi reaches either level 16 or 17 he or she can choose to switch over to the "Army" system and instantly become a level 15 "General of army" which earns 15% commission and is capable of recruiting level 1, 5 and 10 Army accounts.

Shinobi accounts level up twice as fast as Army accounts! Shinobi accounts are best suited for people that have a good network of investors, call group owners for example, even if you just own a small call group you can gain a lot of XP and level up very fast while earning that free commission money!

Shinobi accounts start at level 1 with 3,5% commission
Shinobi accounts require 50% less XP to level up their account.

The amount of XP needed for each level is yet to be determined.

VOUCHERS

The "Voucher" is used to describe the ability from team to manually level a account up without XP involved

Vouchers can be given by the project

Vouchers have the following functions :

Appointing a level 10 account in the army system

Appointing a level 5 account in the army system

Appointing a level 1 account in the army system

Leveling up a account in either the army or the Shinobi system

All vouchers can be issued by the team in unlimited amounts.

Vouchers can be distributed by team to reward good earners, members that are very active or have a positive impact on the community or competition winners etcetera.

Vouchers can be issued for the army branch or the shinobi branch.

We made a blacklist function to blacklist accounts in case of bad behavior.

No matter who you are or where you are from, Phoenixcorps offers you the wings of financial freedom to earn money on your phone or other device without any need to invest anything besides time and effort.
